

# Monthly Indicators

## February 2026

Despite improving affordability conditions, U.S. existing-home sales declined 8.4% to a seasonally adjusted annual rate of 3.91 million, a 4.4% drop from one year earlier, according to the National Association of REALTORS® (NAR). The slowdown followed a 5.1% increase the previous month and modest gains throughout the fall. Sales retreated month-over-month and year-over-year in all four regions.

New Listings were down 5.0 percent to 648. Pending Sales increased 4.2 percent to 471. Inventory grew 3.4 percent to 1,942 units.

Median Sales Price was down 19.1 percent to \$485,000. Days on Market increased 116.1 percent to 134 days. Months Supply of Inventory was down 4.4 percent to 4.3 months.

Nationally, the median existing-home price inched up 0.9% year-over-year to \$396,800, a new high for the month, NAR reported. Home prices have continued to rise across much of the country, in part due to low supply, which remains below pre-pandemic levels. Total housing inventory stood at 1.22 million units as of the most recent reading, up 3.4% from one year earlier, representing a 3.7-month supply at the current sales pace.

## Quick Facts

\* Average Pct. of List Price Received for all properties from March 2025 through February 2026. This is not the average of the individual figures above.

## Historical Percent of List Price Received by Month

# Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

## February

## Year to Date

Affordability Index		Prior Year	Percent Change
